

# Easy Rider Compact

Compact tricycle

NEW

## Van Raam's compact tricycle

The Easy Rider Compact is Van Raam's new tricycle. As the name suggests, it is a compact tricycle. This is shown in both the dimensions and the looks.

The Easy Rider Compact has similar riding characteristics to the Easy Rider tricycle for adults and is specially designed for small adults or tall children.

### For whom?

The Easy Rider Compact is suitable for children and adults with an inner leg length from 63 to 81 cm. This is a body height of approximately 1.40 to 1.70 meters.

”

*The Easy Rider Compact is a compact tricycle with similar riding characteristics to the Easy Rider.*

### Benefits Easy Rider Compact

- ✓ Very compact
- ✓ Very manoeuvrable due to its small turning radius
- ✓ Low entry
- ✓ Rides easier than a traditional tricycle
- ✓ Less strain on the back, neck, shoulders, and wrists

### Characteristics Easy Rider Compact

- With pannier rack suitable for single-sided panniers
- Seat with suspension for optimal driving comfort
- Depth-adjustable comfortable seat
- A stable, low seating position ensures a safe feeling
- 8 gears

## Options and pedal support

With the various options like the mirror, stick holder or pedal adjustments, the bike can be customised to your needs.

Do you want an electric bike? Then you will receive your Easy Rider Compact with pedal support. You can choose between a small and a large Van Raam motor.
